

Laboratory Study Instructions to Participants

Please complete the three parts of the study **in the order written below by your study coordinator**. You will have 15 minutes to complete each task. You may find the task easy or hard. Please keep the good and the bad experiences you have in your mind so you can tell us about them in the final questionnaire. The study coordinator is not allowed to help you during these tasks.

First, do part _____

Second, do part _____

Last, do part _____
